### **Treasurer's Report and Minutes Approval:**

**Item:** Facilities Construction Bond LGSD, presented by Larry Glaze and Joe Justice: good news on polls taken, How we arrived at capital improvement plan –diverse group worked together, consultant did lots of footwork – talking to relevant & key players, tour of schools, conditions and limitations of school buildings, small groups breakout –brainstorming to build consensus,

recommendation to replace Central School – a significant portion of bond issue – issue related to heating systems which is failing along with roof and layout issues. Also there has been a number of modulars used, lot of logistics involved with long term use of modulars. There is still decision to be made by school board about exactly what is going in the bond proposal; they are seeking input from community groups. There are lots of improvements needed at Island City Elem. School, high school, security issues, safety issues, ADA issues. There would be some energy efficient requirements from the state. And there were several questions about this and encouragement to use renewables.

**Item:** Shelter from the Storm

Issues around the proposed plan from the county presented by Carol Lauritzen. Is there enough political pressure to change the trajectory? There is a group formed and suggestions were made about having an open meeting, other strategies. We would circulate info on UC Dems website any meeting, etc.

**Item:** Get out the vote: scripts prepared by Glenn for people to use in phone calls to encourage Dems to vote

**Adjourned:** lost the quorum so adjourned at 6: 26 pm.

Respectfully submitted,

Sharon Evoy, Secretary & Carole Halvorson, who took over the note taking after Sharon left meeting.
